Introduction

Background

The General Teaching Council for Wales (GTCW) is the statutory, self-regulating professional body for teachers in Wales. It seeks to raise the status of teaching by maintaining and promoting the highest standards of professional practice and conduct in the interests of teachers, pupils and the general public.

The Council aims to provide an independent, representative and authoritative voice for the teaching profession in Wales and seeks to provide robust advice to the National Assembly and other organisations on teaching issues.

Introduction to this Digest

This is the tenth Annual Statistics Digest produced by the General Teaching Council for Wales from its Register of Qualified Teachers. The Register represents an important and unique information source concerning registered teachers in Wales.

The information that the Council is able to hold on its Register, is set out in *The General Teaching Council for Wales (Functions) Regulations 2000 (as amended)*. The Council has selected those data fields which it considers to have a high level of accuracy and completeness for inclusion in this tenth Annual Digest of Statistics.

The Council is pleased to include, for the first time, additional information in section 4 relating to Deputy Headteachers and Assistant Headteachers. Unfortunately no trend from previous years is available.

It is important to note that the Digest contains data based on the following criteria:

- All data in the report relates to 'registered teachers'. This includes teachers currently working in the maintained schools sector and those who are not working as teachers in the maintained sector, but who have chosen to register with their professional body.
- Registered teacher numbers are displayed as 'actuals' rather than 'full-time equivalents'.
- Supply teachers are counted once only.
- The census date used for the data taken from the Register is 1st March 2011.

These criteria differ from other information sources, such as those published by the Department for Education and the Welsh Assembly Government.

The Council has published the Statistics Digest annually since March 2002 and where data has previously been included demonstrating a trend from 2002 onwards, this has been amended to allow for a five-year trend commencing March 2007.

For the two tables which relate to data in respect of subject taught versus subject trained (1.12 & 3.10) only a three year trend is shown due to the volume of data provided in these sections.

Copies of the Annual Statistics Digest from previous years are available to download from our website www.gtcw.org.uk if required.

The data in this section is based on registered teachers whose route to Qualified Teacher Status (QTS) was through a course of initial teacher training at a teacher training institution and not through any other route

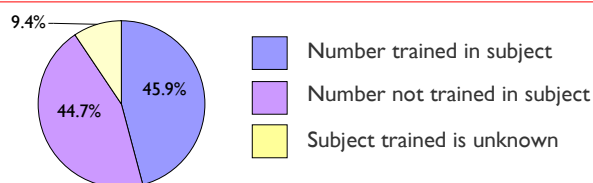

In the cases of those teachers trained to teach subjects in the sciences, there is a noticeable transferability in teaching different subjects within these broad groups. For example, a teacher trained in Biology may also teach Chemistry, Physics or General Science

The data in this section is based on registered teachers whose route to Qualified Teacher Status (QTS) was through a course of initial teacher training at a teacher training institution and not through any other route

In the cases of those teachers trained to teach subjects in the sciences, there is a noticeable transferability in teaching different subjects within these broad groups. For example, a teacher trained in Biology may also teach Chemistry, Physics or General Science

Data Definitions and Assumptions

1.

The data contained in this Digest is based on a number of specific criteria. The following assumptions apply to all tables in the report.

■ All data in this report includes teachers registered with the General Teaching Council for Wales (GTCW).

■ Supply teachers are only counted once regardless of the number of LA supply lists on which they are included or supply teacher agencies they work for.

■ Each section reports on a different group of registered teachers:

- ▶ Section 1 includes all registered teachers with the GTCW;
- ▶ Section 2 includes only newly qualified teachers registered with the GTCW;
- ▶ Section 3 includes only those teachers who have met the Induction standard and who are registered with the GTCW;
- ▶ Section 4 includes headteachers, deputy headteachers and assistant headteachers who are in-service in a school and are registered with the GTCW.

2.

For tables 1.5, 2.4 and 3.3 it should be noted that, in the Statistics Digest produced prior to 2005, teachers registered with GTCW who were employed in a school in England were included in the appropriate phase in which they were working.

Since 2005 these teachers have been recorded separately under 'Others in-service'.

Data produced in respect of phase is based on the employment details on the Register as at 1st March 2011.

3.

The Council has included, for the first time, additional information in section 4 relating to deputy headteachers and assistant headteachers.

In considering the data it should be noted that:

- there is no legal obligation for teachers, schools or LAs to notify GTCW of the teacher posts within a school;
- in the Primary and Other sectors there is a noticeable absence of assistant headteacher and deputy headteacher positions.

4.

For the data provided in respect of subjects the following definitions apply to the relevant table:-

Tables	Group	Data
1.10 2.9 3.8	Secondary trained teachers only	Subject trained - data is based on the first subject recorded on the register only
1.11 2.10 3.9	Teachers working in the secondary sector only	Subject(s) taught - registered teachers are included more than once if more than one subject taught is recorded on their record
1.12 3.10	Teachers working in the secondary sector only whose route to Qualified Teacher Status (QTS) was through a course of initial teacher training at a teacher training institution and not through any other route	Subject taught versus trained Data in respect of subject trained relates to the first subject recorded on the register only However, registered teachers are included more than once if more than one subject taught is recorded on their record
No subject taught data is held for headteachers and therefore registered headteachers in secondary schools are not included in any of the tables relating to subject taught data		

5.

Statutory Induction is applicable in Wales for any teacher who gained QTS after 1st April 2003 and the first cohort of teachers completed Induction in the academic year ending August 2004.

As such, in the Statistics Digest produced prior to 2010, the information for the academic year 1st September 2003 to 31st August 2004 relate to teachers completing Induction in the Summer Term only. The information for all other academic years from 1st September to 31st August includes teachers completing Induction in the Autumn, Spring and Summer terms.

In Section 3 the figures only include teachers who have met the Induction standard and who are registered with GTCW. There will be other teachers who have met the Induction standard in Wales but who may have left the profession or now work in other countries. Conversely there are teachers included in this section who have met the Induction standard in England, but are now registered with the GTCW.
